**Summary**

Architectural graduate with over 6 years of combined academic experience of studying in **architecture** and **sustainability** practices. Strong design and sustainability professional with a **Bachelor of Architecture** from the Lebanese American University, and a **Master of Science in Advanced Sustainable Design** from the University of Edinburgh.

**Skills**

Software proficiency in **AutoCAD (2D + 3D)**, **Photoshop**, **Illustrator**, **SketchUp**, **Lumion**, **Sefaira**, **IES-VE** and Microsoft **Office**. Intermediate knowledge in **Revit**, **InDesign** and **After Effects**. Proficient skills in **hand-drawing** and **sketching**. Timely, clear and concise written and verbal communication.

**Education**

**MSc Advanced Sustainable Design** 2020 - 2021  
**University of Edinburgh**

Demanding 1-year program that gives the knowledge, skills and creativity to put theory into practice in the sustainable development of our cities and buildings by working from the scale of building systems to entire regions.

**NAAB Accredited Bachelor of Architecture** 2014 - 2019  
**Lebanese American University**

Rigorous 5-year program which is one of only three NAAB accredited programs outside of the United States of America.

**Projects and Workshops**

**Advanced Sustainable Design Dissertation** 2021

"How can environmental building simulation tools be integrated in undergraduate architectural education?" <https://bit.ly/37EQmfm>

**Designer** 2018  
**Wood Working Workshop**

Took the challenge of designing, and assembling a wooden deconstructable structure, to enhance sociality, which was displayed on university campus

**Team Member** 2017 - 2018  
**International Architecture Studios**

Participated in two studios in Germany and Spain which offered exposure to and engagement with the architecture of the visited countries.

**Experience**

**Intern Architect** 2019  
**HMA Consulting** - Beirut

Produced plans, sections, elevations and working sketches. Drafted complete sets of construction documents and execution drawings. Participated in site supervision and assessment of shop drawings.

**Intern Architect** 2018  
**Bernard Khoury DW5** - Beirut

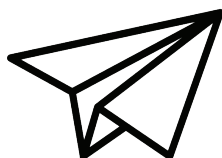

Worked on various projects of wide-ranging scales from institutional projects to mixed-use multifamily projects to high-rise towers. Participated in concept, schematic and design development phases. Produced plans, section, elevations and working sketches. Drafted construction drawings and execution drawings and participated in site supervision.

**Intern Architect** 2018  
**Train Train Association** - Byblos

Analysed the urban area of North Lebanon, assessed its problems then developed a design strategy for the integration of a new public transportation system which includes trains, buses and shuttles. Developed and drafted a new urban plan which includes the new system.

**Intern Architect** 2017  
**Beirut River Initiative** - Beirut

Worked on the reactivation of Beirut's river. Analysed different areas of the city, collected data and assessed problems. Developed a design concept and strategy, drafted it into different presentation materials then present-ed the final outcome in front of a French jury.

**Languages**

Fluent in **English** and **Arabic**  
Basic knowledge of **French**

**Honours**

**Bachelors Degree Classification** Honours  
Cumulative GPA - 3.25

**Masters Degree Classification** TBD

**Activities and Hobbies**

**Photography**  
Architectural, street, art, and landscape photography

**Sketching**  
Architectural sketches, doodles of abstract shapes and forms

**Writing/Poetry**  
Free-form expression through passages and poetry

**Physical Activity**  
Outdoor activities enthusiast, concentrated bodyweight workouts
